

Advanced Practice Nurses (APN)

Scope of Practice Acknowledgement and Agreement

In addition to the scope of practice permitted a registered nurse, and under direct supervision of a physician, an APN may:

1. Obtain patient history and perform physical examinations. Dictate same.
2. Round on patients.
3. Dictate admission notes, discharge summaries and consults.
4. Formulate a working diagnosis, develop and implement treatment plan and monitor effectiveness of such.
5. Surgical Assistance
6. Conduct counseling and patient education.

I am aware of and agree to abide by the Texas Board of Nursing regulations regarding Nurse Practitioners. I also understand and agree to abide by the Covenant Health System and Board rules regarding Scope of Practice.
