ARTICLE 1

GENERAL

1.A. DEFINITIONS

The definitions that apply to terms used in all the Medical Staff documents are set forth in the Medical Staff Credentials Policy.

1.B. DELEGATION OF FUNCTIONS

- (1) When a function under these Bylaws is to be carried out by a member of Hospital management, by a Medical Staff member, or by a Medical Staff committee, the individual, or the committee through its chair, may delegate performance of the function to a qualified designee who is a practitioner or Hospital employee (or a committee of such individuals). Any such designee is bound by all the terms, conditions and requirements of these Bylaws. However, the delegating individual or committee is responsible for ensuring the designee performs the function as required by these Bylaws, after consultation with the Chief of Staff.
- (2) When a Medical Staff member is unavailable or unable to perform a necessary function, one or more of the Medical Staff Leaders may perform the function personally or delegate it to another appropriate individual.

ARTICLE 2

CATEGORIES OF THE MEDICAL STAFF

Only those individuals who satisfy the qualifications and conditions for appointment to the Medical Staff contained in the Credentials Policy are eligible to apply for appointment to one of the categories listed below. All categories, with the respective rights and obligations of each, are summarized in the chart attached as Appendix A to these Bylaws.

2.A. ACTIVE STAFF

2.A.1. Qualifications:

The Active Staff shall consist of physicians, dentists, oral surgeons, and podiatrists who:

- (c) have expressed a willingness to contribute to Medical Staff functions and/or demonstrated a commitment to the Medical Staff and Hospital through service on committees and/or active participation in performance improvement or professional practice evaluation functions.

2.A.2. Guidelines:

Unless an Active Staff member can definitively demonstrate to the satisfaction of the Medical Executive Committee at the time of reappointment that his/her practice patterns have changed and that he/she will satisfy the activity requirements of this category:

- (a) The member will be transferred to another staff category that best reflects his/her relationship to the Medical Staff and the Hospital.

Active Staff members may:

- (a) admit patients without limitation, except as otherwise provided in the Bylaws or Bylaws-related documents, or as limited by the Board;
- (b) vote in all general and special meetings of the Medical Staff and applicable department and committee meetings;
- (c) hold office, serve as department chairs, serve on Medical Staff committees, and serve as chairs of committees; and
- (d) exercise such clinical privileges as are granted to them.

2.A.4. Responsibilities:

Active Staff members must assume all the responsibilities of membership on the Active Staff, including:

- (a) providing or arranging specialty coverage for their established patients in the Hospital and/or presenting to the Emergency Department;
- (b) participating in the professional practice evaluation and performance improvement processes (including constructive participation in the development of clinical practice protocols and guidelines pertinent to their medical specialties);

2.B. COURTESY STAFF

- (a) are involved in at least one, but fewer than 12, patient contacts per two-year appointment term;
- (b) meet all the same threshold eligibility criteria as other Medical Staff members, including specifically those relating to availability and response times with respect to the care of their patients; and
- (c) at each reappointment time, provide such quality data and other information as may be requested to assist in an appropriate assessment of current clinical competence and overall qualifications for appointment and clinical privileges (including, but not limited to, information from another hospital, information from the individual's office practice, information from insurers or managed care organizations in which the individual participates, and/or receipt of confidential evaluation forms completed by referring/referred to physicians).

2.B.2. Guidelines:

Unless a Courtesy Staff member can definitively demonstrate to the satisfaction of the Centralized Credentials Committee at the time of reappointment that his/her practice patterns have changed and that he/she will satisfy the activity requirements of this category:

- (a) are of demonstrated professional ability and expertise who provide a service not otherwise available or in very limited supply on the Active Staff (should the service become readily available on the Active Staff, the Consulting Staff members would not be eligible to request continued Consulting Staff status at the time of their next reappointments and would have to transfer to a different staff category if they desire continued appointment);
- (b) provide services at the Hospital at the request of other members of the Medical Staff; and
- (c) at each reappointment time, provide such quality data and other information as may be requested to assist in an appropriate assessment of current clinical competence and overall qualifications for appointment and clinical privileges (including, but not limited to, information from another hospital, information from the individual's office practice, information from insurers or managed care organizations in which the individual participates, and/or receipt of confidential evaluation forms completed by referring/referred to physicians).

2.C.2. Guidelines:

It is the intent of the Medical Staff leadership and the Board that the Consulting Staff category be available to practitioners in areas that are generally not well represented on the Active Staff, but who provide a needed service to the community. Therefore, if practitioners in a specialty area that has traditionally been represented on the Active Staff request to transfer to the Consulting Staff, MEC,

These additional documents are the Medical Staff Credentials Policy, the Policy on Advance Practice Providers, the Medical Staff Organization Manual, and the Medical Staff Rules and Regulations.

- (2) An amendment to the Credentials Policy, Medical Staff Organization Manual, Policy on Advance Practice Providers, or the Medical Staff Rules and Regulations may be made by a majority vote of the members of the MEC present and voting at any meeting of that Committee where a quorum exists. - (2) The scope of the medical history and physical examination will include, as pertinent:
 - patient identification;
 - chief complaint;
 - history of present illness;
 - review of systems;
 - personal medical history, including medications and allergies;
 - family medical history;
 - social history, including any abuse or neglect;
 - physical examination, to include pertinent findings in those organ systems relevant to the presenting illness and to co-existing diagnoses or pertinent to the plan of care/treatment;
 - data reviewed;
 - assessments, including problem list;
 - plan of treatment; and
 - if applicable, signs of abuse, neglect, addiction, or emotional/behavioral disorder, which will be specifically documented in the physical examination, and any need for restraint or seclusion which will be documented in the plan of treatment.

- (3) In the case of a pediatric patient, the history and physical examination report must also include, when pertinent: (i) developmental age; (ii) length or height; (iii) weight; (iv) head circumference (if appropriate); and (v) immunization status.

(b) H&Ps Performed Prior to Admission

- (1) Any history and physical performed more than 30 days prior to an admission or registration is invalid and may not be entered into the medical record.
- (2) If a medical history and physical examination has been completed within the 30-day period prior to admission or registration, a durable, legible copy of this report may be used in the patient's medical record. However, in these circumstances, the patient must also be evaluated within 24 hours of the time of admission/registration or prior to surgery/invasive procedure, whichever comes first, and an update recorded in the medical record.
- (3) The update of the history and physical examination shall be based upon an examination of the patient and must (i) reflect any changes in the patient's condition since the date of the original history and physical that might be significant for the planned course of treatment or (ii) state that there have been no changes in the patient's condition by an individual who has been granted clinical privileges to perform histories and physicals.
- (4) In the case of readmission of a patient, all previous records will be made available by the Hospital for review and use by the attending physician.

(c) Cancellations, Delays, and Emergency Situations

- (1) When the history and physical examination is not recorded in the medical record before a surgical or other invasive procedure (including, but not limited to, procedures performed in the operating suites, endoscopy, colonoscopy, bronchoscopy, cardiac catheterizations, radiological procedures with sedation, and procedures performed in the Emergency Room), the operation or procedure will be canceled or delayed until an appropriate history and physical examination is recorded in the medical record, unless the attending physician states in writing that an emergency situation exists.
- (2) In an emergency situation, when there is no time to record either a complete or a Short Stay history and physical, the attending physician will record an admission or progress note immediately prior to the procedure. The admission or progress note will document, at a minimum, an assessment of the patient's heart rate, respiratory rate, and blood pressure. Immediately

following the emergency procedure, the attending physician is then required to complete and document a complete history and physical examination.

(d) Short Stay Documentation Requirements

A Short Stay History and Physical Form, approved by the MEC, may be utilized for (i) ambulatory or same day procedures, or (ii) short stay observations which do not meet inpatient criteria. These forms shall document the chief complaint or reason for the procedure, the relevant history of the present illness or injury, and the patient's current clinical condition/physical findings.

(e) Prenatal Records

The current obstetrical record will include a complete prenatal record. The prenatal record may be a legible copy of the admitting physician's office record transferred to the Hospital before admission. An interval admission note must be written that includes pertinent additions to the history and any subsequent changes in the physical findings.
