Notice of and Consent to Background Investigation

Notice: Covenant Health and/or its affiliates intends to conduct an investigation, and/or obtain from consumer reporting agency information concerning your character, general reputation (including criminal records), personal characteristics, and mode of living for the purpose of determining your eligibility for volunteer service. By your signature below, you are affirmatively authorizing Covenant Health and/or its affiliates to request and use your report for volunteering purposes.

Consent: I hereby authorize Covenant Health and/or its affiliates to request and obtain a report on me as described above for purposes of evaluating my qualification for volunteering. I also understand that if a report from a consumer reporting agency is the basis for an adverse volunteer action, I can be furnished a copy of the report, and such additional information as may be required by the law. This authorization shall remain valid until I furnish Covenant Health a written notice of revocation.

SUPERVISING PROFESSIONAL AGREEMENT FOR OBSERVERS

I agree that the Observer's presence with me shall be for the purpose of observation only, and that he/she may not perform any procedures, either in assistance with me or individually. Observer agrees that he/she shall respect the wishes of any patient who objects to his/her presence and that he/she shall abide by the policies and procedures of all Covenant Health entities and comply with the provisions of the Health Insurance Portability and Accountability Act.

I agree that I shall be responsible for all the Observer's acts and omissions while he/she is with me at Covenant. I hereby release and hold harmless Covenant Health and all their related and/or affiliated entities along with their respective directors, officers, representatives, agents, licensees, and/or employees, of all liability, damages, causes of action, suits, claims, or judgments relating to Observer's participation with me at Covenant. This release and hold harmless shall be binding upon the Observers and my heirs, executors, administrators, and assigns.

If laboratory titers are negative, one of the below actions must be completed: 1. Written vaccination declination 2. Acceptance of vaccine
 Written vaccination declination Acceptance of vaccine
2. Acceptance of vaccine
(Hen B vaccination is required in Alaska in some ministries)
Tetanus, Diphtheria & Pertussis (Tdap) – Documentation of vaccination/booster or signed
declination
Annual influenza vaccine Documentation of vaccination or signed declination,
including reason for declining. Must follow masking requirements of setting.
COVID vaccination- Documentation of updated (most current) COVID-19 vaccine or a written
declination for medical or religious purposes. Please refer to local policy for masking
requirements.
Respirator Training: Respiratory Protection (PAPR or N95 Fit Mask Testing), if required by
setting or functions performed. If prior training is not for device provided by PH&S,
PH&S will provide training/testing as appropriate.

I understand the declination of some vaccines may limit the locations where I am able to work. I hereby attest that I provided my administrator all the necessary medical documentation as outlined above in order to meet the health requirements of Providence St Joseph Health. I have done this to protect myself, our patients, colleagues, and the community.

Ideas on where to obtain your childhood and adult immunization immunity records:

- Previous health care employers or any schools you have attended
- Your family Physician or the Health Department where you grew up, which may take a couple weeks.
- Call your state **Immunization Registry Help Desk** as they may have record of your immunizations and can send them to you.

Ideas in where to receive vaccinations:

- Your Primary Care Provider or other walk-in clinics
- Local and national pharmacy stores/chains, some located in grocery stores chains.
- Family Practice Residency programs
- Low income or sliding scale clinics
- Local Health Department

IAM DECLINING A COVID-19 VACCINE. I ACKNOWLEDGE THAT I AM AWARE OF THE FOLLOWING FACTS:
COVID-19 can cause severe illness or death and you can continue to have long-term health issues after COVID-19 infection. The level of protection people get from a COVID-19 infection may vary depending on how mild or severe their illness was, the time since their infection, and their age.
Getting a COVID-19 vaccine can provide added protection for people who have already had COVID-19.
Getting a COVID-19 vaccine is a safer and more dependable way to build immunity than getting sick with COVID-
19, as vaccination causes a more predictable immune response than an infection with the virus that causes COVID-19.
COVID-19. COVID-19 vaccines are recommended for healthcare workers because of the potential for workplace exposure
and because of the vulnerability of the patients and residents they care for.
COVID-19 vaccines help prevent severe illness, hospitalization, and death. Unvaccinated people are more likely to get
COVID-19 and much more likely to be hospitalized and die from COVID-19, compared to people who are up to date with their COVID-19 vaccinations.
COVID-19 vaccination is recommended for people who are pregnant, breastfeeding, or trying to get pregnant, as well as
people who might become pregnant in the future. COVID-19 vaccination during pregnancy helps prevent severe illness
and death and helps protect babies younger than 6 months old from hospitalization.
Persons infected with COVID-19 virus, including those who are pre-symptomatic, can transmit the virus to coworkers and patients, some of whom may be at higher risk for complications from COVID-19.
Some people are more likely than others to get very sick if they get COVID-19. This includes people who are older,
are immunocompromised, have certain disabilities, or have underlying health conditions.
Side effects after a COVID-19 vaccination tend to be mild, temporary, and like those experienced after routine vaccinations. Serious side effects are rare but may occur.
I understand I must follow all current infection prevention policies and procedures for my location, such as masking, to limit the
possibility of transmission of the virus. I understand that I can change my mind and agree to provide my vaccination record if I receive the vaccine in the future.
